

– Michael J. Providence, Unit 8202

For the owners who don't know me, my name is Mike Providence. My wife Pat and I have been owners of Unit 8202 since building 8 was built in 1984.

Ocean & Racquet has been our home away from home every year since 1984. We brought our two toddler sons with us every year to vacation, and now their children(our grandchildren) have been visiting several times a year. We love it here because Saint Augustine never gets old, but also because of the commitment of management and our Board devotes to making O&R the best complex on the beach. Three generations in my family have enjoyed O&R over the years.

Let me tell you a bit about my work history. My working career was spent with the New York State Court System. For 25 years I was the Chief Clerk of the courts in the upstate NY region. This court is the highest court of original jurisdiction. I supervised the deployment of up to 100 non-judicial personnel and management a court budget of over \$1 million dollars annually.

I am finishing my 6<sup>th</sup> year on the Board and am running for re-election. I am presently serving as Vice President on the Board. My goal has always been to place the community's best interests above my own, and sustain an attitude that positively promotes the goals and interests of the community. This includes the health and safety of the owners, guests, and visitors. I am familiar with the Bi-laws and documents of the Association. Here is a brief list of the committees I serve on: Building & Grounds, Finance, E-Pipe, Comcast/Ecco, Website Design, and Rules(Chairman). I have written new rules for Parking, Patio & Balcony, Pet Policies, Bikes, Hoverboards, and others.

In conclusion, I want to continue to give back in some volunteer manner what O&R has given to my family for 30 plus years. I humbly ask for your vote.

MIKE
